SKILLS

HTML, CSS | JavaScript | ReactJS | NodeJS | ExpressJS | MongoDB | REST API | MySQL | Data Structures & Algorithms | Python | Redux Toolkit | CI/CD | Tailwind CSS | Unit Testing | Framer Motion

INTERESTS

Full Stack Development

Front End Development

Back End Development

Zeal to Learn New Things

PROJECTS/INTERNSHIPS

Real Time Chat App
Website ↗

Achievements/Tasks
- **Technologies Used:** ReactJS, Styled-components , Node.js, Express, MongoDB , Socket.io
- **Github link :** https://github.com/Dineshchandra47/Real-Time-Chat-App-012
- Built a real-time chat using socket.io, which includes one-on-one messaging and a chat history features.
- Along with robust user authentication using JWT, optimised performance, and all while guaranteeing data security and user privacy.

Contact Manager
Website ↗

Achievements/Tasks
- **Github link :** https://github.com/Dineshchandra47/Contact_Manager-CLIENT
- **Technologies Used:** ReactJS, NodeJS, ExpressJS, MongoDB, JWT Authentication
- Users can add data by importing a csv file, search an email of a user, or delete a specific user in this app.
- Used JWT authentication where users can sign up and login with email ids, bridged with MongoDB to store the users data, and worked on APIs to access the data from the database.
- Developed import, search, delete, logout functionalities

Food recipe App
Website ↗

Achievements/Tasks
- **Technologies Used:** ReactJS, Redux, React, React-toastify
- **Github link :** https://github.com/Dineshchandra47/Add_to_cart_3_2_23
- Ecommerce store that allows customers to choose items , calculates total quantity, price , sows all details of the added items in cart and able to remove items from cart,

User Management System
Website ↗

Achievements/Tasks
- **Github link :** https://github.com/Dineshchandra47/Nodejs-User-Management-Systemt
- **Technologies Used:** NodeJS, ExpressJS , MongoDB, EJS
- Built Users Dashboard with EJS and Bootstrap
- Able to add new users, read, update, and delete users, and also be able to search the users.

Activity Tracker
Website ↗

Achievements/Tasks
- **Technologies Used:** ReactJS, NodeJS, ExpressJS, MongoDB, Mongoose
- **Github link :** https://github.com/Dineshchandra47/TODO_APP_CLIENT
- Used Hooks, props and events to handle the tasks
- History of tasks can be shown on the left nav , added logout and other functionalities

EDUCATION

Full Stack Development (Internship)
10X Academy
05/2022 - 05/2023

B.Tech. in Electronics and Communications Engineering
Narayana Engineering College
2018 - 2022
